1 Why NLP

Would you like to learn the secrets of the world's top communicators, salesmen and therapists?

Are you in a rut, or stuck, or not appreciated, or not earning what you are worth? NLP is the way out.

Do you want to take your skill, trade or profession to new heights hitherto only dreamt off and turn your dreams into reality quickly and easily? NLP can help you.

Do you have problems in controlling your emotions or your relationships at home or at work ? NLP is the tool.

Do you have irrational fears about things anything such as heights, water, insects, stage, exams, and public speaking? NLP can remove the fear permanently in 10 minutes.

Do you have problems making friends and dealing with the opposite sex ? NLP has the answer.

Do you have problems controlling money ? NLP will give you mastery of money.

Do you have painful thoughts from the past ? Release them with NLP.

Do you have problems in your sexual relationships ? NLP is a great help.

Do you have any sexual identity problems ? NLP deals with identity issues.

Would you like to be powerful, successful and wealthy ? NLP is the answer.

All problems faced by humans are the result of incorrect thinking or programmes you run in your head. NLP has all the tools required to reprogramme your thinking and thus solve all your seemingly insolvable problems.

“If you always do what you always did, you will always get what you always got. If you want something different, you must do something different”. NLP is the power to do something different. So NLP has a lot to offer to you and your loved ones.

How do you think your life will be when all these issues are dealt with?

Knowledge is Power - The Application of Knowledge is awesome – you might have a lot of knowledge but has all this knowledge been converted to power? Knowledge is useless without application. NLP teaches you the application of knowledge.

For example you may know how to remain healthy but do you use that knowledge in your day to day life. If not, NLP can teach you methods in applying this knowledge to effortlessly convert your knowledge into power for your self-development and happiness.

Imagine how will you look, feel and be when you have mastered NLP!

This little book is designed to give you an introduction to the powerful art and science called NLP.
